

ALL-ALUMINUM COMFORT™ COILS

The Trane® Comfort™ Coil unit is the industry's first all-aluminum coil. With an expected service life of more than 15 years, the Trane Comfort Coil has the reliability and efficiency you expect from Trane and provides the comfort your home deserves.

THE PERFECT COMPLEMENT TO YOUR TRANE® SYSTEM.

The evaporator coil is the unsung hero of any air conditioning or heat pump system. It uses a grid of coolant-filled tubes and fins to cool or heat the air blowing over it before it comes through your vents. In warm seasons, it's the component that allows an air conditioner to efficiently absorb heat from your indoor air and transfer it outside, cooling your home while also removing humidity. In the case of a heat pump, the evaporator coil does double duty: cooling your air when it's hot outside, then running in reverse to provide warm air when it's chilly.

THE TRANE COMFORT™ COIL ADVANTAGE.

The Trane Comfort Coil offers several advantages over standard coils, with a patented all-aluminum coil design that's highly efficient, easy to clean, and corrosion resistant. In addition, the enhanced fin design provides superior humidity control when the weather is sticky.

Engineered to pair up perfectly with Trane air conditioners and heat pumps, the Trane Comfort Coil ensures a balanced system that maximizes efficiency and helps lower utility bills.

SEET® TESTED

Every Trane system is put through some of the most extreme conditions found in nature in our SEET [Systems Extreme Environmental Test] lab. Put through five years of severe wear and tear in just a few months, our products can stand up to the harshest environments imaginable.

	<p>AMERICA'S MOST TRUSTED® HVAC BRAND 7 CONSECUTIVE YEARS¹</p>
	<p>MOST RELIABLE HEATING AND COOLING EQUIPMENT BRAND²</p>

¹Trane received the highest numerical score in the proprietary Lifestory Research America's Most Trusted® HVAC Brand study for years 2015, 2016, 2017, 2018, 2019, 2020 & 2021. Study results are based on experiences and perceptions of people surveyed. Your experiences may vary. Visit www.lifestoryresearch.com.

A CLOSER LOOK

ALL-ALUMINUM

Our all-aluminum evaporator coils set a new industry standard by reducing leaks that often occur from corrosives like salt or common household cleaning products. Our patented Comfort Coils are designed to withstand common corrosives—even after 500 hours of a sea salt spray test.

DURABILITY

Like all of the components in our high-quality home comfort systems, each evaporator coil goes through a rigorous testing stage to check for durability and to reduce leaks. We test each coil with burst pressures of 500 pounds per square inch, followed by a helium mass spectrometer that allows us to detect even extremely small leaks. Lasting durability means your home can be comfortable and efficient now and for years to come.

PEACE OF MIND

Other indoor coils are often dirty because they're typically difficult to clean. But Trane Comfort Coils are made with 100% foil-backed insulation, so they can be easily wiped down by your Trane technician. They are also professionally washed clean of manufacturing agents before being assembled. The result is not just a cleaner coil—but cleaner air for your family and higher performance from your HVAC system.

TRANE DEALERS ARE AS HARD TO STOP AS A TRANE ITSELF.

Independent Trane dealers take great pride in creating your perfect indoor environment. They are some of the most highly trained professionals in the business—with an extensive understanding of the movement and conditioning of air and the expertise to recommend, install and maintain the right system for your home.

WE ARE COMMITTED TO USING ENVIRONMENTALLY FRIENDLY PRINTING PRACTICES.

COMFORT. CONTROL. EFFICIENCY.

Optimize the comfort and efficiency of your home with the Trane Home smart comfort system.

The Trane Home mobile app gives you remote access to your HVAC system through your connected Trane smart thermostat. Adjust your temperature, set your schedule, and view your HVAC usage from anywhere.

Trane Home connects to your Trane HVAC system to provide you with remote control and diagnostics. To view additional integrations and subscriptions, visit our Knowledge Base at Trane.com/residential/home-subscription/

WHY IS INDOOR AIR QUALITY IMPORTANT?

We spend 90% of our time indoors, and 70% of that is in our home¹ where the air can be up to 5X poorer quality than the air outside². To help improve your indoor air, Trane offers a complete portfolio of air filtration equipment for whole home solutions for new and existing units.

TRANE CLEANEFFECTS® AIR CLEANER

Utilizes patented technology to deliver cleaner air to the whole home by removing up to 99.98% of airborne particles³ that pass through the re-usable filter, including 99.9% of the Influenza A (H1N1) virus⁴. The CleanEffects® Whole Home Air Cleaner, when used in accordance with manufacturer's directions, is effective at removing a surrogate for the virus that causes COVID-19. Effective removal rate based on independent testing results using MS-2 bacteriophage, a bacteria representative of virus-sized particles like SARS-CoV-2 that causes COVID-19. This level of filtration makes it up to 100X more effective than a standard 1" filter⁵.

asthma & allergy friendly®
Certified by the Asthma and Allergy Foundation of America.

With more than 65 million Americans suffering from asthma and allergies, this certification mark guides consumers in identifying products more suitable for people with asthma and allergies. The **asthma & allergy friendly®** Certification Mark is awarded only to those products that are scientifically proven to reduce exposure to asthma and allergy triggers.

ENERGY RECOVERY VENTILATORS (ERV)

Provide an energy-efficient way to exchange air inside your home with fresh air from outside, removing lingering odors like cooking smells while improving overall air quality.

HUMIDIFIERS AND DEHUMIDIFIERS

Deliver the right amount of moisture to the air throughout your home, adjusting from summer to winter.
