ENERGY STAR is a government-backed program that helps us all save money and protect our environment with energy efficient products and practices. Most HVAC Manufacturers recommend all maintenance and service work be performed by a professional air conditioning and heating dealer that holds the appropriate credentials to install and service air conditioning and heating equipment for warranty eligibility.

“Failure to conform to such specifications and/or instructions shall void this limited warranty.” – TRANE Base Limited Warranty GW-658-0217

**** Service Provided As Needed**

Key Benefits of your *Service Agreement*

- Safe system operation
- Lower operating costs
- Optimal system efficiency
- Clean air circulation
- Extended equipment life
- Maintain equipment warranty

Nearly half of energy used in your home goes to heating and cooling. Dirt and neglect are the top causes of heating and cooling system inefficiency and failure. To ensure energy efficient system operation, it is important to perform routine maintenance. Proper maintenance by a qualified technician is one of the most important steps you can take to prevent future problems.
